EYESTRAIN

When your sight fails. When the letters grow dim. When stitches run together. When the eyes or the head pain. When distant vision is becoming poor

Consult our optician. Delay may mean serious injury to your eyes. Eyestrain, dull headaches and eyes smarting after reading are the surest signs that you need "Humber" glasses just as soon as you can possibly get them.

The Carnival.

The first carnival of the season took place on Wednesday evening last and, although there were several other attractions, there was a good attendance and a splendid time was indulged in by all present. The ice was good and the evening fine and mild which added much to the pleasure of the occasion.

The couple of Spoons, the Indian pair, and the Gold Dust Twins were among the special features. The prizes were awarded by Mrs. Cassels and Major Gaetz as follows:

Ladies: Indian Lady, Miss Losse; Cow Girl, Miss Babcock.

Men: Indian, J. W. Snell; Cavalier, Mr. Andrew.

Couples: The Spoons, Miss Vanbuskirk, Miss Baumgartner.

Girls: Bo-peep, Miss May Rutherford, Madame Pompadour, Miss Verna Lees.

Boys: Weary Willie, Clifford Malcolm; Brigand, Douglas Wilton.

The races were won by Dan Smith, Clarence Markle and Bert Usherwood.

The obliging work of the caretakers, Messrs. Millman and Halstead, is evidently being appreciated.

U.F.A., Edwell Union No. 53.

A meeting of this Union was held in the schoolhouse on Jan. 26, at 7.30. There was a fair attendance of members to hear the reports of delegates to the annual convention at Edmonton. Mr. Comer spoke at some length on the proceedings at the convention especially in regard to the pork packing establishment and members generally, were pleased to hear that this would soon be an accomplished fact. Messrs. Pixley and Walton spoke on the chilled beef project and other matters, which were listened to with interest. It was to be regretted that the Vice-President, who was a delegate, did not attend, as he had copious notes of the proceedings. However, the members will look forward with interest and expectation to the next meeting on February 23rd to hear his report.

Mr. G. Healey, of Hill End, was proposed for membership by W. Pixley and accepted.

The Secretary read a letter with regard to the supply of fencing and barbed wire, which was laid over until next meeting.

The members then adjourned till Wednesday, February 23rd. Members please note.

FRED JAS. POWELL, secretary.

Eckville.

Last week the Bernard Bros. gave a card party, which was kept going till the small hours. The play ran high, but everything passed off quietly. The return was played off on Friday last at the house of "Billy" Manuix, where all had a good time.

There was quite a gathering at "Billy's" on Sunday, when he did the duties of host to perfection.

The school trustees decided to open school on March 1st if a suitable teacher can be procured. Mr. E. Matchett and W. Gaskarth remain trustees and secretary-treasurer respectively, and Mr. Brown was elected to fill the vacancy of trustee caused by the resignation of Mr. McFaul.

HOCKEY MATCH.

The Red Deer Amateur Hockey team met defeat Wednesday night from the Lacombe semipro. by a score of 4 to 1. The game was not as fast as the Stettler-Red Deer game, owing to the tendency of the Lacombe team to play offside and their propensity for rough work.

Lacombe was taking no chances on losing the game, and from timekeeper to Judge of Play lost no opportunity of gaining an advantage. When we say Judge of Play, we mean it only as a courtesy title, as a better name for him would be "Dry nurse for the Lacombe team."

Lacombe was allowed to hack and slash as much as they wished, but should a Red Deer player even so much as give a man a heavy check he was put on the fence. Had it not been for the referee interfering Red Deer would have been playing one or two men short all through the game. Such sharp practice may win games, but it is not sport.

The local team worked hard, and though the play was as much around the Lacombe goal as Red Deer's, our boys lacked the shooting power, and the score was 4-1 in Lacombe's favor. Lacombe's star man, Cooke, is their latest importation, and hails from Lethbridge. With him off the ice Red Deer would have no difficulty in winning out.

For the first ten minutes there was no score, then Lacombe got one on a rush by Cooke. There was no further score until nearly half time when Beatty scored again for Lacombe; score at half time 2-0. In the first five minutes of the second half Cooke scored again, and then the old reliable Cecil Hewson, took the puck from the face-off and scored in twenty seconds. Cooke scored again in fourteen minutes, and the game ended with the score 4-1. Red Deer's Lacombe point, saved a score by tripping Beckett just as he was going to shoot.

Red Deer has protested Cooke, as he is not a resident of Lacombe. A special train will be run to the Lacombe game on the 9th.

SPORTING NOTES.

Wetaskiwin hockey team were defeated twice last week, at Lacombe 13-0, and at Stettler 8-5. Red Deer play at Wetaskiwin to-night.

Lacombe and Stettler play at Stettler to-night. The game is expected to be very exciting as they have it on for each other and are importing new men.

Renfrew hockey team are now showing up since Whitcroft and Miller, of Edmonton, joined them. They won from the Shamrocks by 10-2 in their second game. Joe Hall is suspended for the time being.

A movement is on foot to organize a baseball league for Central Alberta. Wetaskiwin, Camrose, Olds, Red Deer, Innisfail and Lacombe have all promised to join. A meeting has been called to take place in Red Deer some time next month, when a constitution and schedule will be drawn up.—Edmonton Bulletin.

We understand a Soccer Football Association has been formed embracing the whole of Canada. The People's Shield, now at Calgary, will be the Stanley Cup of soccer football.

Red Deer juniors went out to the Industrial School on Saturday last and played the Indian boys.

The game was close and even, the Indian boys holding their end in fine shape. The final score was 3-2 in favor of Red Deer. The Red Deer team were: Williams, Greene, Markle, Gaetz, Smith, and Cliff and Roy Malcolm.

The Penhold hockey boys enjoyed an outing at Horn Hill on Saturday when they engaged in a hockey match and a close game resulted.

The Horn Hill boys are hard players and their forwards did some hard shooting when Billy Spruhan, the Penhold goalkeeper distinguished himself.

Penhold seemed to play more of a defensive game but they succeeded in scoring two goals through Mr. Scott.

At half time the score stood at 1-1, but early in the second half Horn Hill succeeded in adding to their score and near the end another goal was claimed for Penhold which was disputed.

THE RED DEER CURLING CLUB

Win the Golden West Trophy at Calgary.

The Curling Rink, which represented Red Deer at Calgary, consisting of B. Welliver, skip, W. E. Payne, H. L. Gaetz and H. W. Hosking, won more glory than any other rink ever did that represented Red Deer.

In the first event, the Grand Challenge, Welliver was drawn against his rival, "Billy" Wilson, of Innisfail, and went down to defeat by a score of 13 to 0.

In the second event, the Tuckett competition, Welliver was first drawn against Blundell, of Fernie, whom he disposed of by 10 to 6. He next went against Congdon, of Strathcona, whom he also disposed of by 10 to 6. In the third draw, which would have him in the jewelry class if he had won, Welliver was drawn against one of the strongest rinks at the "Spit," Savage, and at the twelfth end the score was 9 all, but in the extra end, Savage, by a lucky fluke, got in the winning stone, the final score being 11 to 0. At this stage the ice was very heavy, and was practically the first game the home rink had played on ice and water, and this being considered they made a very creditable showing.

In the Brewery competition, which was also played on very heavy ice, McLaren, of Macleod, defeated Welliver in the first draw by 15 to 11. Later Welliver defeated this same rink on heavy ice after having played a few games by a score of 11 to 4, and had the ice been better he could have disposed of McLaren in the Brewery competition easily.

In the Burns competition Welliver was first drawn against Duff, Calgary, whom he defeated by 14 to 10. He then defeated McTavish, Calgary, 11 to 6, but met defeat at the hands of Gardner, Calgary, 10 to 5.

In the visitors' competition Bayne, of Banff, who played off and won second place in the competition, defeated Welliver on heavy ice 11 to 8. It was in the Consolation competition that Welliver's rink showed great strength. He was first drawn against McLeod, Calgary, whom he defeated 9 to 5. Welliver next went against DeMille, of Pridis, and defeated him 11 to 4. The next draw was against McLaren, of Macleod, whom Welliver defeated by a score of 11 to 4. The final game was played at ten o'clock at night on Tuesday the 25th, after Welliver had played four games during the day, all of which were played on heavy ice, at times the water being two inches deep. At ten o'clock the weather had turned considerably colder and the ice fairly slippery. Welliver then went against Blundell, of Fernie, in the final and easily turned him down 14 to 7. The cup which the Red Deer rink brought to Red Deer is the only cup, for which the Calgary clubs competed, which was not won by a Calgary rink.

FRANK MOTT, M.A.A.A. Auctioneer.

"Union Jack" Auction and Real Estate Office,

Caetz Ave., N.

If you anticipate holding a Sale, get the best man you can to carry it through. If you decide to employ me, you get your advertisement in this paper, which I have leased for a year, so that people may know where to look, or, better still, see without looking all through the paper for my sale notices.

I have held nearly FORTY SALES and have not had a bad one, or a dissatisfied client; I have also yet to hear of a bad note I have taken.

Book with me and I will give preliminary notice in any SALE FIXTURES space.

FEBRUARY 11th, 1910.—Sale of Residence and Lots in town.

"15th, 1910.—Sale of Cattle and Horses at R. J. Fanson's.

ABOUT PAYING RENT.

What are you getting while you are paying RENT? Yes, a home to live in, but how long can you be sure of that same house? Why until someone comes along and buys it, and then you must look for something else, as the new owner requires it for himself; and if you can see plenty of empty houses just now it will not be for long, as things are going to move in town this spring. But that's a small matter. Why pay rent at all, when you might, by purchasing a home, pay even less per month on a loan than you pay for rent, and every payment, be nearer owning your own HOME. I have tried both ways, and know which is best.

I have two houses close in, on good terms, and if you want something larger with more land, I have a property for sale in North Red Deer; or in West Park Addition.

I have also Improved Farms for sale—from \$8.00 to \$23.50 per acre—on good terms.

New Furniture of all kinds always on hand, and Cook Stoves, and I have a Piano and 3 Organs for sale on good terms.

Notice to The Public!

We have moved into our new store, where we will have far better facilities to cope with our fast increasing repair business.

With our larger workshop, new machinery, and increased help, we will return all repair work promptly.

We will also have the most up-to-date Optical Parlor in the Province.

Remember our store is next door to "Hall's Cash Dry Goods Store," Ross Avenue.

COUNCIL MEETING.

Suggestion that Town Office be Raised a Storey for Council Chamber.

The regular meeting of the
Town Council was held on Thurs-
day evening last. Councillors
Gaetz, Welliver, Carscadden, Hill,
and Galbraith being present, with
Mayor McKee in the chair.

CORRESPONDENCE.

From Munson & Allen, Win-
nipeg, re. taxes on townships
lands.
From Greene & Payne, town
solicitors, asking for information
re. Reinhold case. The clerk gave
information at once.

A. Linn wrote asking for pos-
ition of resident engineer. Filed.
Lacombe clerk asked for copy
of by-law re. licensing pool
tables, etc. Filed.
Edmonton Cement Co. asked
for contract to build cement work
in connection with sewerage.
Filed.

Stettler asked for data re.
water works and sewerage mat-
ters through their secretary of
the Board of Trade. Filed.
Chief Rothnie asked leave of
absence to attend military mili-
tary school to qualify as officer
of squadron of Light Horse.

Auditor A. W. G. Allen re-
signed his position as town
auditor.

E. W. Dowsett applied for pos-
ition of town auditor.
On motion of Councillors Gaetz
and Welliver, Mr. Dowsett was
appointed auditor for the Town
for the present year.

Councillor Gaetz explained that
Councillor Welliver and himself
were unable to report to-night on
Mr. Neville's claim, but they
would be able to report at next
meeting, and asked leave to lay
the matter over. Granted.

COMMISSIONERS' REPORT.

The Commissioners brought
in their report as follows:
We beg to report on the stand-
ing of the construction accounts
as of Jan. 1st.

SEWERAGE CONSTRUCTION.

| | |
|---------------------------------|------------|
| Debitures issued, pro- ceeds | 55,311.80 |
| Local Imp. to issue | 3,840.00 |
| Total | 59,151.80 |
| Expenditures | 54,995.49 |
| Surplus | \$3,856.31 |

WATERWORKS.

| | |
|------------------------------------|-----------|
| Debitures issued, pro- ceeds | 51,108.85 |
| Premium from Local Imp. deb. | 2,826.00 |
| Total | 53,794.85 |
| Expenditures | 52,548.88 |
| Surplus | 1,245.97 |

MARKET SQUARE AND FIRE HALL.
Expenditures 10,024.19
Deb. proceeds 10,000.00

Deficit..... 324.19
On general revenue account
after providing for all the ex-
penditures of the year 1909, paying
all debenture coupons accruing
during the year, paying the de-
mands of the Public and Separate
School Boards, and paying off
the deficit of \$1481.51 from 1908
we are pleased to report that
there is a surplus of \$1099.81 to
carry forward to 1910.

The standing of the sewer
connection account shows an amount
owing the Town of \$1275.05 under
the 5 year repayment plan. In
accordance with the provisions of
the Red Deer bill this amount
less \$520 has been borrowed
from the bank, and it is secured
by the property connected with
the sewers it is not a liability
of the Town at large.

A full statement of the finan-
cial standing of the Town will be
shown in the auditor's report,
which we expect will be present-
ed at this meeting by Mr. Allen.
We recommend that we be
authorized to have the report
printed.

In regard to the advisability
of using the two rooms in the
office building for Council meetings
we beg to report that the space
required for the Mayor's desk and
chair and the Council table and
chairs is 14 ft. x 9 ft. not allow-
ing room for the solicitor's chair
at the end of the Council table;
if this is provided for 17 ft. x 19 ft.
would be required. The secre-
tary's desk and chair requires a
space 5 ft. by 5 ft., and the two
reporters desks and chairs 4 ft.
x 4 ft.

As the rear office is only 14 ft.
10 in. x 12 ft. 11 in. it would not
hold all the furniture even. If
the whole wall between the two
rooms was removed the room
would be 27 ft. x 14 ft., and if
the Mayor's desk was placed at
the south wall and the Council
table lengthways there would be
only 2-1/2 ft. along each side behind
the Councilors' chairs, and at the
north end of the room there would
be a space left of about 10 ft. x
12 ft. in which would have to be

put the secretary's desk and
chairs, and any reporter at
ending meetings, but as there is
now in the front room desks 3 ft.
x 7 ft., 3 ft. x 5 ft., and 3 ft. x 2
ft., besides the chairs, it would
be utterly impossible to use even
the two rooms combined for this
purpose. Besides, to take out the
centre wall would be expensive,
and would necessitate the moving
of one hot air pipe from the fire-
place, and there would not be an
office for the Commissioners' use
which it is absolutely necessary
to have.

We believe that for the present
year, the report of the Council
chamber should be held in the
Council chamber, especially as it
provides free rooms for meeting
of farmers and other associ-
ations and will accommodate a
large number of people.

We instructed the Chief of
Police to take samples of milk
and cream and test them. His
report is as follows:
Wilson & Brown, cream, 25.1
butter fat; J. C. Brazier, cream,
20.4 butter fat; Wilson & Brown,
milk, 3.8 butter fat; J. C. Brazier,
milk, 3.6 butter fat.

We recommend that we be
authorized to purchase a book
case and expend \$30.00 in getting
books and magazines on munici-
pal matters, so that Councillors
can read up on different munici-
pal subjects of interest to them.

G. W. Greene reports that he
has entered defence for the town
in the suit, Reinhold & Bank of
Commerce vs. Town of Red Deer.

We have looked over the fire-
hall as to this building of addi-
tional bedrooms, but are not pre-
pared to make a report at this
meeting as we wish further in-
formation.

We have ordered a supply of
dog tags and dry license plates
for the current year.
We requested the owners of the
building occupied by Messrs.
Gaetz & Gaetz to have re-
paired the eave troughing on the
west side of the building, where
it has been leaking on to the
sidewalk.

We will at our earliest con-
venience obtain full particulars
as to concrete sidewalks, finding
the best kind to lay, and the
approximate cost, and report, so
that we will be able to ascertain
at an early date what streets
these will be laid on and plan
accordingly.

The Council is entitled to two
representatives on the Hospital
Board, nominated by the Coun-
cil. We recommend that you
appoint these at this meeting.
Councillors Tallman and Welli-
ver were representatives last
year.

We beg to point out that the
School Board has not as yet pub-

lished their statement for last
year. As the Board demands
over \$11,000.00 from the Town we
believe that a full statement of
their receipts and expenditures
should be published for the in-
formation of the ratepayers who
furnish the money.

We recommend that we be
authorized to call for tenders for
the \$4,000 pump and the \$3,540
Local Improvement debentures
up to March 15th.

We submit herewith accounts
for your authorization.
We submit herewith for your
consideration the following by-
laws:

A by-law to borrow \$3,540
Local Improvement.
A by-law to appoint an
assessor.

A by-law to hold an election
for Separate School trustees.
We recommend that the re-
quest of Geo. Rothnie for leave
of absence to attend the school of
instruction, Calgary, be granted,
and that his salary be not paid
while he is away.

Councillor Gaetz thought the
bad air in the Council chamber
was due to the cold air pipe tak-
ing the air from the lower flat and
carrying it upstairs. If a cold air
pipe took the air from upstairs
this complaint would be remedied.

The Commissioners thought
the new town building could be
raised a storey and a splendid
Council chamber made upstairs.
Mr. Welliver would like to see
this if it did not cost too much.

The report of the Commission-
ers was then adopted.
The auditor's report was laid
before the Council, adopted and
filed.

Councillors Tallman and Welli-
ver were appointed directors on
the Hospital Board for the Town.

ACCOUNTS

The following accounts were
presented and authorized to be
paid:

| | |
|------------------------|---------|
| Geo. Bryan | \$13.38 |
| Lougheed, Bennett & Co | 25.00 |
| H. Meeres | .84 |
| Wage sheet for Jan. | 60.75 |
| F. H. Tallman | 19.07 |
| Wm. Gan, Elmer Co. | .70 |
| Town of Red Deer | 9.50 |

By-laws to borrow money by
debenture for sewer extension,
appointing assessor, and for elec-
tion of Separate School trustees,
were read and finally passed.

Councillor Welliver was appoint-
ed assessor, and the date for
election of Separate School trust-
ees was set for Tuesday, the 8th
day of February.

Councillor Gaetz thought the
Commissioners should have the
taps of water users inspected, as
he understood taps in many in-
stances were allowed to run con-
tinuously, which was a waste of
water, and should be remedied.
Councillor Welliver asked if
any steps were being taken to
have plans of the water system
made so that the Council would
have some means of locating
water services.

The mayor said the matter
would be taken up as soon as
possible, but it could not be done
before spring.

The mayor said the Albertan
desired a photo of the Council for

their big issue next month, and
desired to know if they could fur-
nish it.
The general opinion was that
the Commissioners should send
their photos, or at least the
Mayor.
The Council then adjourned.

Post Office Guide.

Doors open from 8 a.m. to 9 p.m.
General Delivery Wicket open
from 8 a.m. to 7 p.m.
Money Order Wicket open from
9 a.m. to 6 p.m.

creamy. This land will be sold at a
low price and on long time. Horses
and cattle taken as down payment.
Apply to the owner.
GEO. F. ROOT, Red Deer.

To the People of Red Deer:

Ladies and Gentlemen—
We, the undersigned, wish to
announce to the people of Red Deer
that we have leased a coal mine on the
Wilkins' estate, and that we are now
ready to supply any amount of coal
that is required.

We are independent of car shortage
and labor troubles.
For our coal we will arrive in town every
day—six days in the week.
We guarantee the coal absolutely
clean; no clay and no shale.
For further particulars apply to M.
A. Munro.

Hoping to be favored with your
support, we are,
Yours respectfully,
HY. REINHOLD & SON.

ECZEMA

"For three long
months I was
not able to at-
tend to my own
needs; and for
three weeks the
eczema was so bad
that I was unable
to feed myself. I
had to be fed as
one feeds a baby,
because I could not
hold knife, fork,
spoon or cup."

So says Miss Violet McSorley,
of 75 Gore Street, Sault Ste.
Marie, in telling how Zam-Buk
cured her of eczema. She adds:
"Hands, wrists and arms up to
the elbows were covered with
eczema. The itching and the
soreness were nigh unbearable.
As the disease developed, the
skin actually peeled off, leaving
raw sores. The palms, fingers,
backs of my hands and wrists
were all in this shocking state,
and I was forced to sit in agony
all the while. The raw sores

were soon in a
wound condition,
and my finger nails,
all except two, fell
off. During the
different stages of
my trouble, I
sought the advice
of three different
doctors and received
treatment, but
although getting
slight relief at
first

DR. CLARK'S SPEECH.

Dr. M. Clark, member for Red Deer in the House of Commons, spoke at some length in the budget debate. The doctor's free trade utterances were considerably toned down in this speech and he is getting some light on the questions of the day. For instance he says if the Americans build a high wall against our goods, we must build a wall against their goods or lose our self-respect. That is the view taken by the Conservative party and the feeling that pervaded the breast of every Canadian when the National Policy swept the country.

Then the doctor speaks clear on the iron and steel bounty outrage. He does not uphold the government in giving bounties to steel magnates, equal, in some cases, to the full amount of wages paid men in the manufacture thereof. He cited Gladstone as claiming bounties as the worst form of protection. In this the doctor has the support of the News and every elector in the west.

Then the doctor theorizes on the balance of trade, got a whack or so at Hon. Geo. E. Foster, backed up the French treaty, wanted better trade relations with Germany, and wound up by claiming all the progress in this Great West for the Liberal party.

The doctor said in his speech: "I shall be glad if the hon. member who follows me will tell me, and will tell my constituents, who are largely an agricultural population, many of them new to this country and honestly seeking political truth, what was actually done for the farmer during the previous Conservative regime."

If the doctor is very anxious to receive information of this sort, we may be able to enlighten him. The Conservative Government was responsible for the construction of the C.P.R., the greatest feat of railway building the world had ever seen at that time. In 1875 this country was a howling wilderness; in 1881 towns and villages dotted the thin line of iron through the West; by 1890 tens of thousands of energetic pioneers were flocking into this country from all parts of the world. Europe stood aghast at the magnitude of the enterprise undertaken by the government of Canada, an enterprise which they predicted would meet with disaster, a prediction also made by Liberals who now jump up like the doctor and take all the glory to themselves. Under Conservative rule farmers' clubs were organized, in the east Prof. Robertson was engaged to devote his time to the welfare of farmers, government creameries were organized, the same laws governing homesteads were in existence then, as now, practically speaking. In those days the timber limits had not been given away, the lands still belonged to

the North-West, our fisheries were our own and the people were quite as contented and happy as now, even if there were not as many in the country.

LEUTENANT-GOVERNOR BULYEA IN LIMELIGHT.

The Regina West has been pouring some hot shot into Premier Scott, of Saskatchewan, lately, and in doing so unearths some damaging evidence against the Lieutenant-Governor of Alberta, showing by documentary evidence that Bulyea was responsible in part for the handing of our lands over to the federal authorities. The West says:

Scott's introduction of Bulyea's name into the debate in the Legislature has certainly placed the Governor of Alberta in the limelight. Canonized by the Leader and Bulletin, two pap-fed party organs, he must feel that he has reached the pinnacle of fame. Used by the Leader to detract attention from the misgovernment in this province, we can assure him that he doesn't make even a good red herring. As a self-sacrificing patriot, our readers may judge of his success and sincerity after reading the following letter:

"You will please excuse the liberty I take in addressing you, if it is a liberty to lay before you facts I consider will be of material influence on the welfare of the Liberal party in the Northwest Territories."

"You are, of course, cognizant of all the representations that the Territorial government have made in reference to increase of the financial assistance that is voted to us from time to time, and the arguments that have been advanced why a material increase is absolutely necessary, if the alternative of provincial autonomy were not granted to us. I have had considerable correspondence with the Federal members representing the Territories, who were kind enough to apprise me of the general representations they had made to your government and I advised them that I considered that if such were adopted it would reasonably satisfy the general public in the Territories, and would put your candidacies and your supporters in the coming election in a position in which they could fight with zeal and, I am pleased to say, with every prospect of success."

—Excerpt from letter from Non-partisan Bulyea to Sir Wilfrid Laurier, June 16th, 1903.

Autonomy could go to the winds as long as money came to be handled by the Department of Public Works over which Bulyea presided and this "would put your candidacies and supporters—(Sir Wilfrid)—in the coming election in a position to fight with zeal." The rights of the people did not count with G. H. V. Bulyea, it was money he wanted. Money at any price without regard to principle and he and his followers would fight with zeal. No autonomy or no provincial rights for

Fight-with-zeal Bulyea as long as money came along.

And this was the Bulyea who at this time was supposed to be fighting with Haultain for provincial rights and provincial autonomy. This was the man, who after agreeing to a Bill of Rights, unanimously endorsed by the Legislature, basely deserted his colleague at Ottawa, while demanding those rights. This was the man, who after this desertion, devoid of courage, left the province rather than face an outraged electorate. The Leader and the Bulletin are welcome to Saint Bulyea and especially to his principles which accord so well with their own.

ENDORING THE UNIVERSITY SENATE.

The Medicine Hat Times voices the sentiment of the News when it says:

The United farmers of Alberta in session at Edmonton last week showed their good sense by endorsing the action of the University Senate in placing the Agricultural College at Strathcona in connection with the university. Nothing whatever but sectional spirit is at the bottom of any other proposition, and no good reason has been advanced for any other location. There are many and weighty reasons for placing it where the senate decided.

The Liberal party of Canada is not consistent. The leaders have been persistently sticking their nose into Great Britain's affairs and telling the people they should abolish the House of Lords.

They had an opportunity of abolishing the House of Lords in Canada, the Senate, the other day, but they stood by them to a man.

Let the Liberal party reform or abolish the Canadian senate, as they promised, then there will be time to attend to Great Britain's affairs.

LOTS OF PRINTER'S PIE LEFT.

The Calgary Albertan bewails the high price of foodstuffs and says: "If you swear off meat, you go up against the flour proposition and if you swear off flour, you run up against some other high priced complication, and if you swear off from it, you run into the doctor bill. The only way to really go in for cheap living is to go out of living entirely."

CONSIDER THE FEED STABLES.

(Caster Advance.) We note the proposition of councillor H. H. Gaetz of Red Deer to provide an open shed for the accommodation of farmers teams while trading in town. While this may be a good move so far as cleanliness of streets is concerned and a move in the interest of farmers as well, it is a custom which unless well handled is likely to be abused. For the purpose of marketing the farm produce by means of an open display it is as necessary to the farmer as the shop window is to the merchant, also as a place where one can tie up for a few minutes sometimes to do a little shopping it will be a boon to man and beast, but if the town shed is to be a church shed, a shelter shed and a feed shed, it is not likely to be approved of either by the proprietor of the feed stable or by the animal unfortunate enough to have been forgotten at meal time by an over-zealous devotee to matins or perhaps some less worthy attraction. Give the farmer every inducement to trade in the town, but don't allow the feed stable, one of the best factors in keeping the farm horse in good humor, to be put out of business.

SUNLIGHT SOAP

Do you know the difference between working and having the work done for you? Sunlight Soap makes the dirt drop out—saves you time and money—doesn't injure neither hands nor clothes.

Is just the difference between Sunlight Soap and ordinary soaps. Follow Directions

Water in the Mewmarket Canal.

Indignant Denial of a Slander.

How the Water Raged in the Ditch.

Ottawa.—Listen to the Newmarket Express on the most recent troubles of the Aylesworth canal. The Express is on the ground and can testify exactly what happened. This is its assurance that there really is water in the famous canal.

"Those people who have been saying that there is no water in our canal ought to see it now."

"When the contractors commenced excavating the basin of the canal north of Huron St., it was necessary first to divert the water of the creek from that old channel in order that they might not be bothered with the water. A 24' diversion ditch was dug at a right angle to the creek westward along the north side of Huron Street to the G. T. R. property, thence north past the tannery till it again struck the tortuous channel of the creek on the west side of the canal. A few hundred yards north of this the creek turns across to the eastern side of the canal, and of course part of the canal has been left to be excavated when they are ready to turn the water into it. When this diversion ditch was completed, a few flanks were driven into the mud in the bottom of the creek at Huron Street, some earth was thrown in to form a dam, and the water was successfully turned into the diversion ditch. The excavation of the basin was completed and the contractors were busy putting in a cement wall. They had the wall on the west side completed and were busy with the foundation of the wall on the east side of the basin when on Monday last the rain descended and the floods came and the diversion ditch was not big enough to carry the floods and the dammed water beat against the dam and broke the dam away and ran into the basin even to the northern end of it where the water was again dammed by the portion of the canal that is not excavated and the water thus dammed continued to rise until it filled the basin and submerged the tools of the men who were working on the foundation of the cement wall under 7 feet of water and the men and the contractors dammed the dammed water till it was not dammed where it ought to be dammed and dammed the canal that was not worth a dam."

"No matter how the present boycott may turn out, however, it seems that the prices of live stock are bound to remain at a high level for at least six months to come. This statement is based not only on the present shortage of meats in the United States, a shortage which becomes relatively greater in view of the acute industrial conditions that are creating an unusually large demand for foodstuffs, but it is also based in part on conditions at present existing in Montana, Wyoming and other parts of the West. Not very much has been said so far in regard to these conditions, but it seems quite clear that the destruction of cattle and sheep on the ranches of the West, as a result of recent blizzards, will be proportionate to that which occurred in the Canadian West some few years ago, when nearly half the cattle on many ranches were destroyed. So great is the scarcity in supply even now that half-fat Western lambs were selling at \$8 in Chicago last week—lambs such as were sold by the thousand a year ago at \$6.75 for feeders."

In connection with the above report the daily papers Saturday stated "Three hundred farmers of Vernon County have agreed not to sell any cattle, hogs, poultry, eggs or butter for sixty days, beginning February 1. Their action is a protest against the statements of the large packing house interests that the farmer and stockman is responsible for the high prices of foodstuffs. A letter will be sent to all the farmers associations in the United States requesting them to withhold their products from the market."

That delightful Canadian illustrated magazine, the 'Canadian Pictorial', which is to Canada something of what the 'Illustrated News', or the 'Graphic' are to England, continues to improve with each year of its existence. While Canadian pictures generally predominate, plenty of illustrations are given of events and scenes the world over, so as to merit its claim to give 'News by Views.' Short complete stories, music, and well edited departments add to the interest.

The quality of the photographs, the exquisite enameled paper, and the fine printing, cannot be fully appreciated unless you actually see it, but it is undoubtedly credit to Canadian journalism. It certainly was a tribute to merit when the Montreal Carnival Committee this year, as last, unanimously accorded to the 'Canadian Pictorial' the honor of having the exclusive right to issue the Official Carnival Souvenir. Last year's Carnival Souvenir was an astounding success. This year's issue at the same low price of fifteen cents, promises to be even better. The 'Canadian Pictorial' is issued monthly by the 'Pictorial' Publishing Company, 142 St. Peter street (Witness Building), Montreal, and the subscription rate is \$1.00 a year.

The 'Canadian Pictorial' and the Red Deer News one year each for only \$1.75.

BOYCOTTING MEATS IN THE UNITED STATES.

Farmers Taking a Hand in the Fight.

The Farmers Sun in its weekly market report says: "While the live stock market in the United States has been in a booming condition for some months past this interest seems at the present to be between the devil and the deep sea. On the one hand the price of corn shows a tendency towards steady increase, and in parts of the United States there is something approaching a famine in the matter of hay. On the other hand, a well organized campaign by consumers backed by official support, is being carried on for the purpose of depressing the price of meats—prices which the consumers consider altogether beyond reason. In Ohio a committee of the Legislature, which has been investigating this matter, might suggest that people of the state to refrain from eating meat for two months as a means of breaking down prices. In Pittsburgh, Pa., a boycott went into effect to-day under which 125,000 men, representing 100,000 persons, have pledged themselves to refrain from meat eating for thirty days and as a direct result a drop of from 40c. to 50c. per owt. in the price of cattle has already occurred in Pittsburgh."

The real cause of the grievance of which consumers complain is, not, however, found in the prices which farmers are receiving. This cause is found in the number of additions made to the price of meat between the time it leaves the producers farm on the hoof, and the time it reaches the consumers' tables ready for consumption. As the Sun has pointed out over and over again, the cost of distribution under the present system, where a dozen butchers are scrambling over a territory which could be covered by one, and where the cost of calling for and delivering orders has to be met is the greatest evil. One of the greatest benefactions of the century might be conferred upon mankind by anyone who could devise a practicable scheme for eliminating unnecessary cost along this line. If that were done the producer would receive no less price than now, possibly he would receive more, and the consumer would pay a great deal less than he is paying to-day."

"No matter how the present boycott may turn out, however, it seems that the prices of live stock are bound to remain at a high level for at least six months to come. This statement is based not only on the present shortage of meats in the United States, a shortage which becomes relatively greater in view of the acute industrial conditions that are creating an unusually large demand for foodstuffs, but it is also based in part on conditions at present existing in Montana, Wyoming and other parts of the West. Not very much has been said so far in regard to these conditions, but it seems quite clear that the destruction of cattle and sheep on the ranches of the West, as a result of recent blizzards, will be proportionate to that which occurred in the Canadian West some few years ago, when nearly half the cattle on many ranches were destroyed. So great is the scarcity in supply even now that half-fat Western lambs were selling at \$8 in Chicago last week—lambs such as were sold by the thousand a year ago at \$6.75 for feeders."

In connection with the above report the daily papers Saturday stated "Three hundred farmers of Vernon County have agreed not to sell any cattle, hogs, poultry, eggs or butter for sixty days, beginning February 1. Their action is a protest against the statements of the large packing house interests that the farmer and stockman is responsible for the high prices of foodstuffs. A letter will be sent to all the farmers associations in the United States requesting them to withhold their products from the market."

Eckville.

The government dairy meeting was held in the school house last Wednesday. There was only a small attendance. The addresses given by Messrs. McIntyre and Pearson were very interesting. One of the principal improvements advocated was the culling out of unprofitable animals.

Notice is given of a meeting of the patrons of the Eckville cheese factory, to be held on Wednesday, 2nd inst.

Bernard Bros. took a load of hogs to town last week, which they had contracted at top prices.

Frank Crozier, who recently purchased the Houvenan farm, has left for High River.

Sheriff's Office, 12th January, 1916.

Hang On Till Your Luck Turns.
By **GEORGE PAYNE.**
In one of the largest wholesale grocery houses in Chicago, and therefore in the world, there is a bookkeeper working for \$20 a week who has only one honest reason to offer to explain why he is not a senior partner in the house. The reason is that he lacked enough confidence in his fate to wait one week on the hope of fortune beginning to smile on him, and the story is one that says: "Hang on a little longer; your luck will turn," as plainly as the words. The president of this grocery company and the bookkeeper in question began together. Each had saved \$500. Five hundred dollars in those days was more than it is to-day, and the young plutocrats began to look around for the best way to invest their wealth. The money had come hard. It had been saved from wages that were anything but munificent. The capitalists were careful. They wanted something safe, sane, and certain to yield good profits, and after looking the field over they decided that the grocery store was the thing. They knew the business, and they knew what it could do for them. Now, growing neighborhoods are strange things to reckon on. They grow suddenly and for no particular rational reason, and they cease growing with the same suddenness and in like manner. If they didn't, the real estate business would lack half of its allurements and half of its failures. The new neighborhood into which the young men poured their \$500, their experience, their efforts, and their hopes for the future was one of these inconsistent ones. Its boom started with the best appearances. It continued to live up to appearances for a year; then it ceased to boom. The new store had as good a trade as could be expected from the number of householders which it could naturally be expected to serve. It was a good store, a big store, and the two proprietors were models of courtesy and fairness in their dealings. The neighborhood, quick to realize its advantage, showed its appreciation, and the store did a good business for the neighborhood as it was then. But the store was built on dimensions in proportion to the neighborhood as it was expected to be in a couple of years, and as the neighborhood didn't live up to expectations, there was a \$10,000 store struggling for existence on a \$5,000 store's trade. That was where the test came. The two partners were sanguine. For a year they struggled gamely hoping, expecting that the boom would come to life again and the inevitable prosperity would be theirs. The year passed and the boom failed to show. The store now actually became a losing proposition, and day by day the owners stood behind life counters and saw the balance grow on the wrong side. Bills fell due, bills contracted on what seemed to be a certainty. Creditors began to clamour for settlement, and there was nothing much to settle with. A mortgage crept in on the stock and fixtures, and after the fashion of mortgages, it began to creep and grow. The big house that had furnished the store held the mortgage, and while its credit man was willing, to reason, he didn't see much hope for the beginners. "Something will turn up," said the hopeful one. "The wholesale house won't foreclose." "They will," said the timid one. And he sold out his share of the mortgaged stock for \$200. The wholesale house bought him out. A week later the store's single competitor went out of business and the tide turned. Business began to pick up, not sensationally, but enough to pay expenses and interest. And then the boom came back and the man who had stuck was safe. His store grew by leaps and bounds. He sold it out for 20 times what it had cost him, and went into the wholesale business. One day a broken down fellow came in to ask for work, and the successful one put him on the bill desk. He did it because it was his old partner. Keep hanging on. No matter what you are doing, no matter how discouraged you are, hang on. If to-day is your unlucky day, to-morrow ought to be otherwise.

L. I. D. 19-T-4.
The Council of Local Improvement District 19-T-4 met in Red Deer on Saturday, Jan. 22nd. The following councillors made the necessary declaration of office for their respective divisions:
No. 1, W. J. Reay.
No. 2, Wm. Pearson, Sen.
No. 3, D. McLure.
No. 4, Arthur Hives.
No. 5, S. D. McConnell.
On the motion of S. D. McConnell and W. J. Reay, Arthur Hives was elected chairman for 1916. The minutes of the previous meeting were adopted. On the motion of D. McLure and Wm. Pearson, W. P. Code was engaged as sec'y-treas. at a salary of \$225. Moved by W. J. Reay and seconded by D. McLure that the rules of procedure in force for 1909 be adopted. Carried. McLure and Pearson, that the secretary procure receipt books for the use of the foremen of the district. Carried. McLure and McConnell, resolved, that the rate of assessment for 1916 be 4 cents per acre. Carried. McLure and McConnell, that the secretary write the Department of Public Works, asking that a survey be made, starting at a point about 40 rods from the S.E. corner of sec. 6, 38, 27, running north-east to the line between secs. 5 and 6, a distance of about 30 rods. Carried. Reay and McLure, resolved that the Department be asked to make a survey between secs. 3 and 4, 37, 26, west about 20 rods to a well on the line. Carried. Pearson and McConnell, that the Department of Public Works be asked to make a grant to improve the road around the lake in sec. 10, 26, 38 equal to the amount proposed to be spent for last year at the meeting of Jan. 23rd, 1909. Carried. McLure and Pearson, resolved that the Department of Public Works be asked to build the two pile bridges asked for last year at the meeting of Jan. 23rd, 1909. Carried. Pearson and Reay, resolved that the Department of Public Works be asked to build a pile bridge on Old's Creek, between secs. 11 and 12, 38, 26. Carried. Reay and McLure, that the Department of Public Works be asked for a grant of \$200 to drain and grade the township line between secs. 19 and 24 Tp. 37, R. 26 and 27. Carried. McLure and Pearson, resolved that W. J. Reay and S. D. McConnell be a committee to lay the foregoing resolutions before E. McInerney, M.P.P., and ask his co-operation to secure the grants asked for. Carried. The meeting then adjourned. **W. P. CODE, Sec'y-Treas.**

Another County Heard From.
To the Editor of the News:
Sir:—In reference to Dr. Grant's reply to the Bulletin, in the News, permit me to say that more criticism of the kind should be encouraged by our local press. Socialism is a vital question and if it cannot stand criticism from any man or set of men it should fall. Before we pass our judgement it would be most essential to investigate, and I wish that all the readers of the News would begin to study the Capital of Marx forthwith, and I am quite sure that ninety-nine out of every hundred would declare for Socialism in spite of Dr. Grant. Dr. Grant refers to some "mythical part of the Marxian doctrine." This we will take as a merry guess, as it is not accompanied by any proof. (I bet a foot-jack against a doughnut that the doctor has never seen a volume of the Capital of Marx, much less read one.) Will the doctor kindly point this "mythical part" and also give us a better substitute if he has one? I am quite sure that the million followers of Marx all over the world will appreciate his information. I do not think that any one of those ten million believe that Marx is infallible, but what they do believe, I think, is this: that Karl Marx has clearly pointed out the genesis of surplus value and the evolutionary tendencies in economics. Socialism of to-day is not anyone's. It is a scientific philosophy, and rests upon a historical economic and scientific foundation. It points out with accuracy the laws of economic evolution. Its principles are international and world-wide, and there is no doubt that it will in the near future usher in a higher state of civilization. That Socialism is the next step in civilization, is as that light follows darkness. The tremendous growth of the Socialist vote all over the world should be proof enough. Producers of all kinds, desks, fields, factories, and mines, unite! We have nothing to lose but our chains, but we have a world to gain.

If we are to be free we must ourselves accomplish our emancipation. To accomplish this we must unite with the Socialist party which recognizes our class mission to abolish class rule. Under Socialism all society will be members of the producing class and therefore that which is for the benefit of one will be for the benefit of all.
A. ALFRED ISAACSON.

Humor and Philosophy
By **DUNCAN H. SMITH**
PERT PARAGRAPHS.
WHEN a man is caught with the goods on him his ability to deliver them in convincing shape is the only thing that will save him. There is plenty of time to do mean things when you have discharged all your rightful obligations. Anybody can get enough if quantity and not quality is what he is after.

Having backbone may be desirable, but at times it is uncomfortable. The people who need help and at once proceed to go out and wrest it from their comfortable abiding place are the ones that get it. Knowing how to beat a masterly retreat is the ground plan of bravery and the very foundation of courage. Prosperity may be a new and strange thing, but it is really remarkable how quickly an individual can get so used to it that he feels that he can't do without it. Don't worry over the inevitable, for it is as calm and unmoved as the base of the mountain when it contemplates you.

Minor Strains.
If I could just assume my harp To sing the people's songs, To voice their sorrows and their joys, Their troubles and their wrongs, I wouldn't care who cut or loosed With songs sublime and grand, But so related that no one could With meaning understand. If I could be the ragtime muse, Throw grammar to the breeze And let the meter run itself However it might please, Just so I touched the common man And reached the people's heart, I wouldn't care for polish or The first points of art. If every urchin on the street Would juggle with my tunes, If sitch an urchin would come them o'er With kettles, pots and spoons; If pretty creatures who sang Would hum them over the boys, I wouldn't care what critics said Or what I might displease. Yes, let me sing the people's songs In halting lines and crude, Not tying signs above their heads, But for their every mood. The simple songs of home and love, The joyous, simple strain That sort of hits them where they live And dances through the brain.

Explanation.
"What is a paradox?"
"Paradox?"
"Yes."
"You have heard of idle curiosity?"
"Yes."
"That it?"
"What does it mean?"
"Why, man, it is the buskiest thing you ever saw."
Simple.
"I see that a New York woman has killed a cat and brought it back to life."
"I can do more than that. I have often brought men to life."
"My what means?"
"My bringing into a barroom and saying, 'What'll you have, boys?'"
Came From Somewhere.
"That is a bright boy of yours, Jones."
"Yes, indeed."
"Inherit his qualities?"
"That is for you to say."
"Well, I have never seen his mother."

Sweet Revenge.
"He is a woman biter."
"Indeed?"
"Absolutely."
"How interesting! What is his calling?"
"Designer of women's hats."
Safe Enough.
"Aren't you afraid of burglars?"
"No. They always come after midnight."
"What difference does that make?"
"My wife has been through my pockets long before that."

Blavet Charter.
"He can practice law, medicine, write a poem or build a house."
"Can he do anything?"
"That's it."
"He must be incorporated under the laws of New Jersey."
Experience.
I had a little pony. His name was Bucking Bill. I lent him to a lady To ride across the hill. I used her how she liked him. She cut me nice a little And said, "I think your pony Too much like married life."

No Friend of His.
"Introduce me to your tailor."
"I don't know him."
"That seems strange."
"You wouldn't think so if you owed him as much money as I do."

LOCAL & GENERAL.

Secure a bargain at Mrs. Jarvis' clearing sale of millinery.

C. A. J. Sharman recently sold several fine jerseys to G. Tiffin, of Coleman, Alta.

Protect your eyes from snow-blindness by wearing a pair of H. J. Snell's dark glasses.

H. E. Vosburgh and daughter, of Granum, were the guests of Mr. and Mrs. C. E. Hall last week.

Miss Gray, of Stafford, England and Miss Gieson, of Hamilton, are the guests of Mrs. G. W. Greene.

Mr. and Mrs. Irwin Hamley arrived from the east on Wednesday last, and will take up their residence on Douglas Street.

The Alexandra Club meets tomorrow evening at the residence of Mrs. McLeod, Alexander St. A full attendance is desired.

Miss Lund has retired from the post office and Miss Rowell and J. Nutcombe will be members of the staff from Feb. 1st.

A. T. Stephenson, skip, left for Edmonton tonight yesterday accompanied by T. A. Gaetz, Hugh Clark and J. A. Carswell as a rink.

The steam laundry has secured the services of R. Bowman again. Mr. Bowman is well known in Red Deer as an experienced workman and can be relied on to give satisfaction.

Geo. Blake, Hill End, recently sold 20 steers at 4 c. per pound to Jim Gaetz which brought him the neat sum of \$1021.20. The combined weight of the steers was 25,530 and four of them weighed 5,560 pounds.

W. Cassels, who has been up to B. P. Alford's ranch on the Clearwater, returned from the west with Mr. Alford last week. He reports no snow in the west country when he left and plenty of trout in the streams, which were still open. He even saw a number of mallard ducks in the open water. He says there was hardly a y of snow until he reached the Penhold bridge.

A special sitting of the Supreme Court of Alberta will be held at Red Deer commencing on Tuesday, March 1, to re-try John F. Dubois on the cattle stealing cases which were heard here before Judge Beck in November last. The Judge found the evidence insufficient to prove possession of the stolen animals by Dubois, but on appeal by the Crown to the Supreme Court on banc, that Court unanimously found that the view taken by the trial judge of what constituted possession was wrong, and directed a new trial.

"VICTOR" GRAMAPHONES AND RECORDS.

Come in and ask to see our stock of records and machines.

We have an immense stock of records—the complete list of 10-inch double sided records.

YOU WILL FIND WHAT YOU WANT.

The Gaetz-Cornett Drug & Book Co., Ltd.

Councillor F. H. Tallman is spending a few days in Edmonton, Calgary and Winnipeg.

J. Jeremy, late of the W. E. Lord Co., has accepted a position with the Spencer Co., Victoria, B.C.

D. A. Soroggie, late of Guelph Ont., is visiting his brother-in-law, F. W. Galbraith. Mr. Soroggie is located at Bow City collieries, Southern Alberta.

The next carnival at the rink is announced for Feb. 16th. This will probably be the best carnival of the season, weather permitting as lots of time is given to prepare for it.

The moving picture show continues to draw large audiences. The performance is high class, clean and instructive, and is low priced enough for anybody.

Amateur Hockey Versus Professionalism.

The hockey situation in the central section of the Alberta Amateur Hockey Association is becoming somewhat strained, and unless serious steps are taken immediately there are grave probabilities of the league being broken up.

Protests have been entered by Red Deer against both the Stettler and Lacombe clubs for playing men who are not eligible to compete under the residence clause of the constitution; and the residence clause is the only rule that prevents the importation of players, for as far as professionalism is concerned it is almost an impossibility to prove that any club is paying men if they once determine to do so.

As a result of the protest against Stettler, Lynn and Kent, formerly of Strathcona, were suspended by the Association; nevertheless, these men played against Wetaskiwin in the last league fixture and from all accounts will play against Lacombe in the Lacombe-Stettler game on Wednesday.

Lacombe was not so fortunate in their choice of players. Lustig, their first importation, proved a lemon and got his walking papers. Their second choice, however, is certainly an acquisition to their team, and it is this man whose standing Red Deer questions. His name is Cooke, and he has lately from Lethbridge. It is alleged. He arrived in Lacombe about two days before the famous Edmonton-Lacombe game, of which we still occasionally hear in the correspondence columns of several papers.

A word in explanation of Red Deer's attitude in protesting may not be amiss.

The Alberta Amateur Hockey Association originated in Red Deer. R. H. Brown of Red Deer (now of Edmonton) being elected President, and the Constitution naming Red Deer as the annual meeting place for the Executive. The Red Deer Club feels itself bound to live up to the Constitution as long as they are members of that Association, and both have done, and will continue to do so, but it is small encouragement to any amateur team and also to the supporters of that team to find when playing a league fixture that they are up against a picked bunch of semi-professionals from half a dozen different towns.

Red Deer is ready and willing to enter a team in a semi-professional league with any teams between Calgary and Edmonton, but when Red Deer does enter a semi-professional league it will not be in the guise of Amateur hockey, nor masquerading under the protection of the A. A. H. A.

It looks particularly unsportsmanlike for Lacombe to import players after their experience last year, when they took the league pennant from Olds by having them suspended for playing a Calgary man.

It is very doubtful from the present outlook whether the Association has attained too great proportions to be handled by the executive committee of the Association. Lacombe plays at Stettler to-night and it was reported here on Saturday on good authority that both teams are already strengthening up for the game. Two well known Edmonton players have joined Stettler and they are expecting another ex-Strathcona man. Lacombe,

we believe, has also captured two more puckchasers, but we are unable at present to give definite information as to their former address. It's a ten to one bet they're not from Edmonton.

This state of affairs will remind old timers of the celebrated interview Moose Baxter gave one of the San Francisco papers in regard to the Brewery Cup when that trophy represented the Baseball Championship of the Province. According to Baxter, where ever he went the cup followed, and it is a certainty that he and a couple of other players won the cup for at least four different towns during the one season.

In fact, to sum the situation up, the game is degenerating in a purely gambling proposition, and the teams are being supported by the "Sporty" fraternity, who expect to even up by gambling on the result of the games.

This state of affairs can have but one result. These towns are not large enough, nor have they any Bill O'Brien to play angel for a professional team, and instead of the hockey game proving a friendly spirit between the towns in the league, it is only causing ill feeling and jealousy that will take years to eradicate.

Poplar Ridge.

Mr. and Mrs. Mosher and daughter, of Michigan, arrived in Red Deer last Sunday and are stopping with Mrs. Mosher's father, George Rogers, Mr. and Mrs. Mosher have a son with intention of staying here.

H. S. Strong has been appointed sec.-treas. for the school district.

The Ladies meet at Mrs. Archibold's this afternoon.

The ladies have had the church organ repaired and polished so that it is now in first class condition. The ladies are to be congratulated on their enterprise.
